

Daniel Saavedra Morales

EDUCATION

Ph.D. in Statistics <i>Pontifical Catholic University of Chile</i>	2023–Present
Teaching Degree in Mathematics for Secondary Education <i>Academy of Christian Humanism University</i>	2021–2022
M.Sc. in Engineering Sciences <i>Pontifical Catholic University of Chile</i> Thesis: Detecting dangerous objects in baggage using deep learning techniques on X-ray images, under the supervision of Professor Domingo Mery.	2017–2019
Civil Engineer in Mathematics and Computing <i>Pontifical Catholic University of Chile</i>	2017–2019
Bachelor of Engineering Sciences <i>Pontifical Catholic University of Chile</i> Major in Mathematical Engineering. Track: Stochastic Modeling and Minor in Computer Science.	2013–2017
Primary and Secondary Education <i>Nuestra Señora de Loreto School</i>	1998–2012

WORK EXPERIENCE

Pontifical Catholic University of Chile <i>Faculty of Mathematics</i> Instructor for statistics courses: Probability and Statistics, Data Analysis and Exploration.	2024–Present
ANID Scholarship Recipient <i>National Agency for Research and Development</i>	2023–Present
Liceo Malaquias Concha <i>Teaching Practicum</i> Mathematics Teacher.	2022
Colegio Técnico Las Nieves <i>Secondary Education Teacher</i> Physics and Mathematics Teacher.	2020–2021
Rentadrone <i>Python Programmer Analyst</i> Developed a deep learning model to detect photovoltaic faults in FLIR images.	January 2020–May 2021
Pontifical Catholic University of Chile <i>School of Engineering</i> Instructor and Coordinator for the Pre-Calculus T&I bridging course.	January 2019

Telefónica I+D	Summer 2018
<i>Professional Internship</i>	
Researcher: Developed an image recognition model using deep learning.	
Thesis Project	2018
<i>Maintenance Plan for Equipment at Pedro, Juan & Diego</i>	
Project in collaboration with BrainFood.	
Pontifical Catholic University of Chile	2014–2019
<i>Schools of Engineering and Mathematics</i>	
Teaching assistant for courses in:	
Calculus, Differential Equations, Probabilistic Models, Statistical Inference,	
Stochastic Models, Image Processing, Pattern Recognition, and Specialization Project.	
Undergraduate Research	2016–2017
<i>School of Engineering, Pontifical Catholic University of Chile</i>	
“Segmentation of Bacterial Colonies,” research with Professor Timothy Rudge, Assistant Professor at the School of Engineering.	
“Analysis of Facial Expressions in MOOCs,” research with Professors Domingo Mery and Mar Perez.	
Bachelor’s Project	2016
<i>Detection of Large-Scale Events Using Mobile Phone Data</i>	
Project in collaboration with Telefónica I+D.	

PROFESSIONAL SKILLS

<i>Languages:</i>	Spanish (Native)
	English (Intermediate)
<i>Programming Languages:</i>	Advanced: MATLAB, L ^A T _E X, Python, R.
	Intermediate: C++, Java, C#.

EXTRACURRICULAR ACTIVITIES

Handball Coach, Engineering School UC	2023–Present
DPV Kutral Handball	2018–Present
<i>Handball Player</i>	
Enseña Chile	2020–2021
<i>Collective leadership program.</i>	
Engineering Social Preparatory Program	2013–2018
<i>Volunteer in general coordination, academics, and human resources; mathematics and biology teacher.</i>	
PUC Futsal Team	2013–2018
<i>Selected team member; represented the university in national championships.</i>
